Software Engineer

With over 10 years of experience as a Software Engineer, I've shipped everything from smaller web projects to complex applications handling serious traffic. I have mentored developers and established code and security guidelines. My expertise includes software reliability, real-time integrations and establishing engineering practices that improve code quality and team efficacy.

WORK EXPERIENCE

Atma Energy • Remote • 12/2024 – 01/2026

Software Developer • Full-time

- Enhanced a proposal system, driving over \$10 million in annual sales while reducing proposal creation time by 78% through streamlined processes.
- Streamlined the proposal creation process, achieving a 40% reduction in time spent, by integrating Scanify and optimizing existing workflows.
- Developed a customer dashboard that enhanced client engagement by 100%.
- Led the implementation of solar monitoring systems, improving client satisfaction and operational efficiency by streamlining data access.
- Developed a service platform that streamlined communication with customers, enhancing ticket management efficiency by cutting response times from weeks to hours.
- Designed and executed a seamless integration of Stripe for service payments, significantly reducing payment processing time and enhancing user experience.
- Transformed the contract management process by integrating DocuSign, significantly enhancing user experience and reducing administrative overhead.
- Established automated testing practices, boosting code test coverage from 0% to 75% within 3 months, enhancing overall software reliability.

Steadfast Collective • Southampton, UK / Remote • 08/2017 – 11/2024

Technical Lead

- Mentored junior developers and conducted code reviews, resulting in a 50% reduction in code defects and a 25% increase in code quality. Developed and maintained a complex Laravel-based web application that processed over 10,000 requests per day.
- Led a project to create a scientific virtual conference platform, fostering collaboration among researchers and improving accessibility to global audiences.
- Worked on a robust SPA for a veterinary video consultation service, improving operational efficiency and reducing appointment scheduling time by implementing innovative features.

- Created a user-friendly React Native mobile app for a learning management system, significantly improving accessibility and learning outcomes for users.
- Optimized database performance in multiple applications by implementing indexes and query optimization
- Lead and developed a cross-stitch designer and marketplace integrated with Stripe Connect and Stripe Billing

Chaptr • 09/2014 – 08/2017

Developer

- Developed multiple websites, from small marketing websites to e-commerce shops.
- Led a team initiative to improve design implementation, resulting in a more efficient workflow and increased client satisfaction.

EDUCATION

Licentiate degree in Engenharia Informática (Computer Engineering)

Instituto Politécnico de Castelo Branco • 01/2009 – 01/2013

CERTIFICATIONS

Certified Laravel Developer • 07/2018 – Present

Stripe Certified Professional Implementation Architect • 07/2024 – 07/2026

Stripe

SKILLS

CSS, Devops, HTML5, Inertia.js, JavaScript, Laravel, Laravel Echo, Mobile development, MySQL, Object-Oriented Programming (OOP), Pest, PHP, PHPStan, PHPUnit, React, React Native, Stripe, Tailwind CSS, Vue.js, Web Development, Websockets

Interests: Cycling, Football, Hiking, Video Games
